

Carbide core bit kit with M16 thread compatible with SDS-plus

Carbide core bit Kit (core bit + bit holder with pilot drill) ready to use, compatible with SDS+ for large diameter drilling. Its high-quality steel and carbide, along with its patented dust clearance technology near the teeth, provide an extremely long service life and optimal drilling speed. Ideal for electrical and plumbing work: installing electrical boxes, running pipes...

## DUST RELEASE TECHNOLOGY: REDUCES WEAR

### ■ DUST RELEASE TECHNOLOGY

Optimal evacuation of dust

### ■ PREMIUM CARBIDE TEETH BRAZED TO COPPER AT HIGH TEMPERATURE

High heat resistance

### ■ HIGH-STRENGTH TREATED STEEL BODY

Extreme lifespan

### ■ DRILLING DEPTH 50 MM

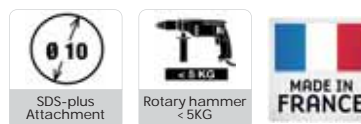

Usability
