

CONCRETE DIAMOND CORE BIT

3 TIMES MORE HOLES
TWICE LESS WEAR

Ref.
436

Features

- New segment are more resistant.
- They have 2 times more diamond.
- New segment are made with titan coated diamond which allows smooth an effective work and makes lifetime longer.

Benefits

- Drill rebar.
- Corrugated segments :
 - better evacuation of rubble.
 - less effort for the machine and for the user.
- Open segments :
 - Crown ready for use.
- Forsheda® seal.

Applications

For passing electrical cable ducts, water or evacuation pipes, ventilation duct,...

* on 2017, items
n° 436B and 439B
will move to 450 mm
useful length

439B

Applications

- Special asphalt core bit.
- Powerful machines.
